2- Explain how to create a society whatever its form according to the Algerian legislation of trade and give in brief the role of small and average enterprise in the national economy. (10pts).

According to the Algerian legislation of trade, the creation of a society whatever its form is subordinate to the authentic act of writing by a notary study which creates to high cost of the contract and lateness. This society creation and employment is sufficient to create a commercial society. On the contrary, in the developing countries a private act written by the contributors or associated is sufficient to create a commercial society. The society contribute in local and national economy.
